

Marc Berthelette

Senior DevOps Engineer · AWS · Kubernetes · Production Reliability

Smiths Falls, ON, Canada · Remote (Americas) · marc.berthelette@gmail.com
linkedin.com/in/marc-berthelette-3aba6917 · Bilingual: French (native) · English (fluent) · Available immediately

Professional Summary

Senior DevOps Engineer with 18 years of infrastructure automation, CI/CD, and production reliability across regulated, customer-facing platforms in financial services and energy. Built a Python/FastAPI validation service safeguarding 250 enterprise repositories and de-risking a platform-wide upgrade. Direct AWS build experience (EC2, S3, Route 53, VPC), production Kubernetes and ArgoCD, years of Terraform infrastructure-as-code, and a track record of driving RCA-based reliability improvements that measurably reduce MTTR. Bilingual French/English, incorporated in Canada, available immediately.

Core Expertise

Cloud Infrastructure	AWS (EC2, S3, Route 53, VPC), Microsoft Azure, Terraform, Ansible
Containers & Orchestration	Kubernetes, Docker, ArgoCD
CI/CD	Jenkins, GitHub Actions, Azure DevOps, pipeline-as-code
Reliability & Observability	Dynatrace, Splunk, ELK Stack, incident RCA, MTTR reduction, automated remediation
Scripting	Python, FastAPI, Bash

Work Experience

Énergir — Senior DevOps Engineer

Montréal, QC | September 2021 – Present

- Drove incident RCA and implemented proactive monitoring, observability dashboards, and automated remediation to reduce MTTR across 12 application teams and 70+ applications.
- Implemented Infrastructure as Code practices using Terraform and Ansible, standardizing environment provisioning and reducing configuration drift across dev, staging, and production.
- Led cloud modernization initiatives, migrating 5–10 mission-critical services to Microsoft Azure with measurable improvements in scalability, resilience, and cost efficiency.
- Standardized CI/CD delivery across nine distinct runtimes for 12 application teams and 70+ applications.

Key technologies: Terraform, Ansible, Microsoft Azure, CI/CD, incident response, observability

Desjardins — Senior DevOps Engineer (Contract)

Montréal, QC (Remote) | October 2025 – March 2026 — *concurrent engagement, delivered alongside the Énergir role*

- Designed and built a Python/FastAPI service testing the configuration of ~250 enterprise JFrog Artifactory repositories every 4 hours, publishing results to Dynatrace.
- Extended the harness into the regression-safety net for the enterprise JFrog Artifactory version upgrade.
- Automated on-demand Artifactory environment provisioning with Kubernetes and ArgoCD.
- Built Splunk alerting to detect manual configuration changes made outside the CI/CD pipeline, improving auditability and compliance in a regulated financial-services environment.

Key technologies: Python, FastAPI, Kubernetes, ArgoCD, Dynatrace, Splunk

Tink — DevOps Engineer

Montréal, QC | January 2018 – August 2021

- Built the compute, caching, and database layers of a client's full AWS migration target environment (EC2, S3, Route 53, VPC, self-managed memcached, serverless relational database) with no prior AWS experience; the client cancelled the migration before cutover.
- Built a self-healing response for a recurring, unstable Elasticsearch cluster, eliminating a manual-page failure mode.
- Centralized Jenkins Pipeline as Code across a team maintaining 80+ applications for 20+ clients.

- Part of a 24/7 on-call rotation supporting all production systems and applications.

Key technologies: AWS (EC2, S3, Route 53, VPC), Jenkins, ELK Stack, Bash

SOVO Technologies — Lead Technician → Software Engineer

Montréal, QC | November 2008 – December 2017

- Oversaw all company IT infrastructure, including a zero-downtime server relocation project, and made core servers redundant to eliminate single points of failure.
- Wrote production software for roughly seven years before the Software Engineer title formalized the work.

Key technologies: C++, Java, SQL, VMware vSphere, Active Directory

Education

Bachelor of Automated Manufacturing Engineering — École de Technologie Supérieure (ÉTS), Montréal, QC | 2005 – 2016

DCS in Computer Science Technology — Cégep André-Laurendeau, Montréal, QC | 2002 – 2005
