

Marc Berthelette

Senior DevOps Specialist · Multi-Client Delivery · Azure & AWS

Smiths Falls, ON, Canada · Hybrid — Montréal-reachable · marc.berthelette@gmail.com
linkedin.com/in/marc-berthelette-3aba6917 · Bilingual: French (native) · English (fluent) · Available immediately

Professional Summary

Senior DevOps consultant with 18 years delivering infrastructure and CI/CD across multi-client and multi-team environments. Centralized pipeline tooling for 20+ clients at Tink and for 12 internal teams across nine distinct runtimes at Énergir, entering each ecosystem cold and reverse-engineering it before automating it. Deep Microsoft Azure and Terraform/Ansible practice, direct AWS build experience, production Kubernetes and ArgoCD, and a consistent record of team enablement — workshops, documentation, and adoption — alongside delivery. Bilingual French/English, incorporated in Canada, available immediately.

Core Expertise

Cloud Platforms	Microsoft Azure, AWS (EC2, S3, Route 53, VPC), Azure DevOps
Infrastructure as Code	Terraform, Ansible, Puppet, environment provisioning, drift reduction
Containers & CI/CD	Docker, Kubernetes, ArgoCD, Jenkins, GitHub Actions, pipeline-as-code
Systems & Linux	Red Hat, CentOS, Ubuntu, Bash, Python scripting, incident troubleshooting
Client & Team Enablement	Multi-client delivery, technical training, documentation, cross-team adoption

Work Experience

Énergir — Senior DevOps Engineer

Montréal, QC | September 2021 – Present

- Standardized CI/CD delivery across nine distinct runtimes — Java, Node.js, Python, Spark, Oracle, CloudFoundry, MuleSoft, Salesforce, and Databricks — for 12 application teams and 70+ applications, entering most with no prior experience.
- Led cloud modernization for 5–10 mission-critical services on Microsoft Azure and implemented Terraform and Ansible infrastructure-as-code across dev, staging, and production.
- Drove CI/CD and platform-engineering adoption across 12 teams outside any reporting line, running recurring enablement sessions (~6/year) with each team after delivery.
- Drove incident RCA and implemented monitoring, observability dashboards, and automated remediation to reduce MTTR.

Key technologies: Python, Microsoft Azure, Terraform, Ansible, Azure DevOps, GitHub Actions, Docker

Desjardins — Senior DevOps Engineer (Contract)

Montréal, QC (Remote) | October 2025 – March 2026 — *concurrent engagement, delivered alongside the Énergir role*

- Designed and built a Python/FastAPI service validating the configuration of ~250 enterprise JFrog Artifactory repositories every 4 hours, publishing results to Dynatrace.
- Automated on-demand Artifactory environment provisioning with Kubernetes and ArgoCD for self-service configuration testing.
- Built Splunk alerting to detect manual configuration changes made outside the CI/CD pipeline.

Key technologies: Python, FastAPI, Kubernetes, ArgoCD, Dynatrace, Splunk

Tink — DevOps Engineer

Montréal, QC | January 2018 – August 2021

- Centralized Jenkins Pipeline as Code across a team of 10–15 developers maintaining 80+ applications for 20+ clients, standardizing pipeline steps regardless of underlying tech stack.
- Managed fleet configuration as code for 600+ servers using Puppet and Spacewalk, and automated OS-level patching and kernel-update reboots.
- Built the compute, caching, and database layers of a client's full AWS migration target environment (EC2, S3, Route 53, VPC, self-managed memcached, serverless relational database) with no prior AWS experience.

- Part of a 24/7 on-call rotation supporting all production systems and applications.

Key technologies: AWS (EC2, S3, Route 53, VPC), Puppet, Jenkins, Bash, ELK Stack

SOVO Technologies — Lead Technician → Software Engineer

Montréal, QC | November 2008 – December 2017

- Oversaw all company IT infrastructure, including a zero-downtime server relocation, and eliminated single points of failure through redundancy.
- Wrote production software for roughly seven years before the Software Engineer title formalized the work.

Key technologies: C++, Java, SQL, VMware vSphere, Active Directory

Education

Bachelor of Automated Manufacturing Engineering — École de Technologie Supérieure (ÉTS), Montréal, QC | 2005 – 2016

DCS in Computer Science Technology — Cégep André-Laurendeau, Montréal, QC | 2002 – 2005
